

# Mona Vale Road upgrade work

Overview June 2014

**Mona Vale Road East upgrade:** Investigations are under way for the 3.2km upgrade of Mona Vale Road to four lanes between Manor Road and Foley Street. Work to build two lanes in each direction between Foley and Daydream Streets is expected to form the first stage.

**Mona Vale Road West upgrade:** Investigations are continuing for the upgrade of Mona Vale Road to four lanes between McCarrs Creek Road and Powder Works Road.

**Community comment:** The community would be invited to comment on an early concept design for the proposed upgrades later this year.

**Upgrade work** was completed following the fatal crash including improved linemarking, speed surveys, new speed limit signs, improved curve signs on the steep descent and warning signs on the approach to the **Ponderosa Parade / Samuel Street roundabout**. Roads and Maritime plans to improve traffic flow by widening Mona Vale Road to two lanes westbound from **Foley Street through the Ponderosa Parade roundabout** and to two lanes eastbound through the roundabout and install an additional safety barrier.
